6. Ability to Convey a Deep Understanding of Healing Touch Concepts and Principles

Requirement: A written reflective paper on your understanding of the Major Concepts and Principles specifically taught in the Healing Touch Program Curriculum.

Submission Guidelines:

Submit a 3-4 page double-spaced reflective report creatively referring to all 30 concepts and principles in terms of how you might convey them within a Level 1 classroom. Concepts and principles may be grouped with like concepts and principles, as there is much overlap between many of them. Each time a reference is made to one or more, place the number (or numbers) of that principle in parentheses *such as* (6,7) after the statement, so that by the paper's end, all 30 have been referred to.

You may express understanding of the concepts and principles in your own unique way as long as the requirement is met. One option is to group similar items together and paraphrase them in your own words in terms of how you understand these concepts and principles using language appropriate to a Level 1 student. Another option would be to use the generic Level 1 class schedule and identify how the concepts and principles could easily be woven into the various curriculum blocks and content.

Some concepts and principles are referred to frequently during a Level 1 class (such as #s 4, 6, 11, 13, 18, 19, etcetera) while others may only be referred to only once or a few times (#s 1, 3, 10, 11, 22, 27). Also, some concepts and principles are self-evident (#s 27, 29) while others require more explanation based on the current level of experience and understanding of the student or students.
